### Objectives and Investment Policy

#### Objective

The investment objective of the Fund is to achieve long-term capital growth.

#### Investment Policy

The Fund aims to achieve its investment objective by investing primarily in shares of companies either in developing and emerging markets (countries that are in economic terms less developed than the major Western countries) or which carry out a significant proportion of their business activities in these markets. The Sub-Investment Manager incorporates environmental, social and governance criteria as part of its investment research and seeks to exclude companies that are directly involved in the following activities: (i) adult entertainment; (ii) coal production; (iii) gambling; (iv) tobacco; and (v) weapons production.

The Sub-Investment Manager uses a growth style of investment, evaluating fundamental factors relating to companies, including the company's business model, the competitive landscape of the relevant industry, upcoming product releases to be introduced by the company and recent and projected financial metrics. Macroeconomic or country specific analyses are also utilized to evaluate the sustainability of a company's

growth rate. The Fund is actively managed which means the Sub-Investment Manager is actively making investment decisions for the Fund. The Fund measures its performance for comparative purposes against the MSCI EM NR USD Index ("the Benchmark"). However, when selecting investments, the Fund is not required to follow the composition of this index. Additional information is detailed in the Prospectus.

#### Dividend Income

Dividend Income that the Fund receives is automatically reinvested into the Fund and is thus part of the share value.

#### Investment Period

This indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The risk assessment is based on historical data and is not guaranteed to remain unchanged. It may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free as all investments involve risks.

This Fund is ranked at 6 because funds of this type have experienced high rises and falls in value in the past.
