What is this product?

Type: Undertakings for the Collective Investment in Transferable Securities (UCITS)

Product Term: Recommended minimum holding period: 5 year(s)

Objective: The Fund aims to achieve its objective by, amongst other criteria, investing in companies that meet the Sub-Investment Manager's environmental, social and governance ("ESG") criteria. The Fund invests primarily in a concentrated portfolio of long-only, equity securities of companies located worldwide which are listed or traded on recognised markets. The Fund will invest at least 80% of its net assets in companies that the Sub-Investment Manager believes adhere to the Fund's ESG criteria, supplemental analysis, which may vary depending on the sector, is carried out to determine an individual company's ESG factors. The Fund follows a significant ESG integration approach as every company is screened with ESG considerations such as, but not limited to: alignment with UN Sustainable Development Goals and UN Global Compact. Limitations to ESG analysis include the need for improved quality of the data available. The Sub-Investment Manager uses a combination of quantitative, qualitative and fundamental analysis to construct the portfolio. The Fund will typically seek to invest in businesses that have exposure to long-term trends (such as aging populations and changes in technology) that should grow in importance regardless of GDP and/or government policy, as opposed to more short-term cyclical or seasonal trends. The Fund is actively managed which means the Sub-Investment Manager is actively making investment decisions for the Fund. The Fund measures its performance for comparative purposes against the MSCI World NR USD Index ("the Benchmark"). However, when selecting investments, the Fund is not required to follow the composition of this index. Additional information is detailed in the Prospectus. Additional information is detailed in the Prospectus: <https://www.heptagon-capital.com/documents/prospectus>. The Fund's Depositary is Brown Brothers Harriman Trustee Services (Ireland) Ltd. The current share prices for the Fund may be obtained on Bloomberg, Morningstar, Thomson Reuters and Fundinfo.com.

Intended Retail Investor: The intended investor of this Fund should have basic knowledge of relevant financial instruments.

What are the risks & what could I get in return?

The risk indicator assumes you keep the product for 5 year(s). This product has no maturity date.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions are very likely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the risk indicator shown.

This Fund does not include any protection from future market performance so you **could lose some or all of your investment**.

The risk category shown is not guaranteed and may shift over time. The lowest category does not mean risk free.

Additional risks are detailed in the Prospectus. This list does not purport to be exhaustive and risks of an exceptional nature may arise from time to time.

Performance Scenarios

The scenarios shown illustrate how your investment could perform over the next 5 years assuming you invest \$10,000.00. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Recommended minimum holding period: 5 year(s)

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The Fund does not include any protection from future market performance so you could lose some or all of your investment.

WHAT HAPPENS IF CARNE GLOBAL FUND MANAGERS (IRELAND) LIMITED IS UNABLE TO PAY OUT?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the Depositary. If the UCITS is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

WHAT ARE THE COSTS?

The Reduction in Yield ("RIY") shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for two different holding periods. The figures assume you invest \$10,000. The figures are estimates and may change in the future. The person selling you or advising you about this product may charge you other costs, if so, this person will provide you with interpretation about these costs and show you the impact that all costs will have on your investment over time.
